ECURIOUS CHALLENGE · SMART RESERVATION FOR EV CHARGING

BAYWATCH

Reserve digitally.
Access physically.

BayWatch connects EV charging reservations with physical bay access. The licence plate is the key: book a bay, arrive, and the bay is held for you.

FIND → RESERVE → ARRIVE → CHARGE → RELEASE

POWERED BY ECURIOUS · GOINGELECTRIC DATA

THE MARKET · GERMANY

THE EV WAVE IS HERE

2.0M
battery-electric cars on German roads

+43%
new BEV sales in 2025, now 19% of all new cars

204K
public charging points, +17% in a year

1M
public points targeted by 2030

≈ 10 EVs share every public charge point. Every bay has to work harder.

Sources: KBA (Jan 2026), Bundesnetzagentur (May 2026), via electrive and Clean Energy Wire. Ratio: our calculation.

THE PROBLEM

YOU ARRIVE. THE BAY IS TAKEN.

45%

of European EV drivers say a charger **occupied by another vehicle** is one of their biggest problems.

01 OCCUPIED ON ARRIVAL

02 NO-SHOWS BLOCK BOOKINGS

03 OVERSTAYS & BLOCKED BAYS

Source: Parkopedia European Driver Survey 2024 (2,440 respondents, incl. 1,220 EV drivers).

THE IMPACT

EVERYONE LOSES

DRIVERS

DETOURS, WAITING, RANGE STRESS

CHARGE-POINT OPERATORS

IDLE BAYS, LOST SESSIONS

THE EV TRANSITION

CHARGER ANXIETY

58% of EV drivers wait for a public charger at least 1 in 5 times.

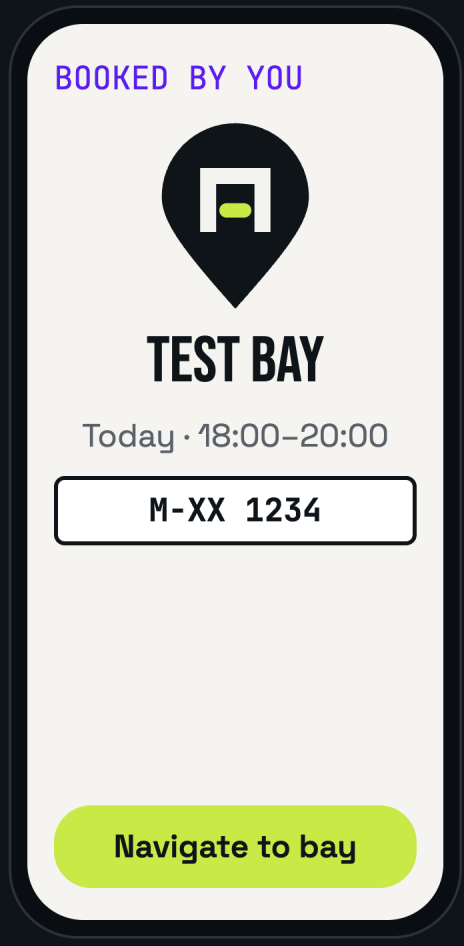

A booking only has value if the bay is really free when you arrive.

Source: CTEK / YouGov EV survey 2023, five European countries.

OUR SOLUTION

MEET BAYWATCH

Reserve a bay in the app. The bay is physically held until you arrive.

GUARANTEED BAY

Hardware keeps it free

YOUR PLATE IS THE KEY

Camera opens the bay

FAIR RULES

For no-shows and blockers

HOW IT WORKS

FIVE STEPS, ZERO GUESSWORK

01
RESERVE
Pick a bay and slot in the app, pay the fee.

02
HOLD
Ecurious hardware keeps the bay free.

03
ARRIVE
Camera reads your plate, the bay opens.

04
CHARGE
Plug in at the charger as usual.

05
RELEASE
Bay detected clear, the next driver is in.

APP → BAYWATCH BACKEND → ECURIOUS SERVER → BAY HARDWARE + CAMERA

Charger data from GoingElectric. Camera trouble? Manual unlock in the app.

LIVE ON THE ECURIOUS BAY

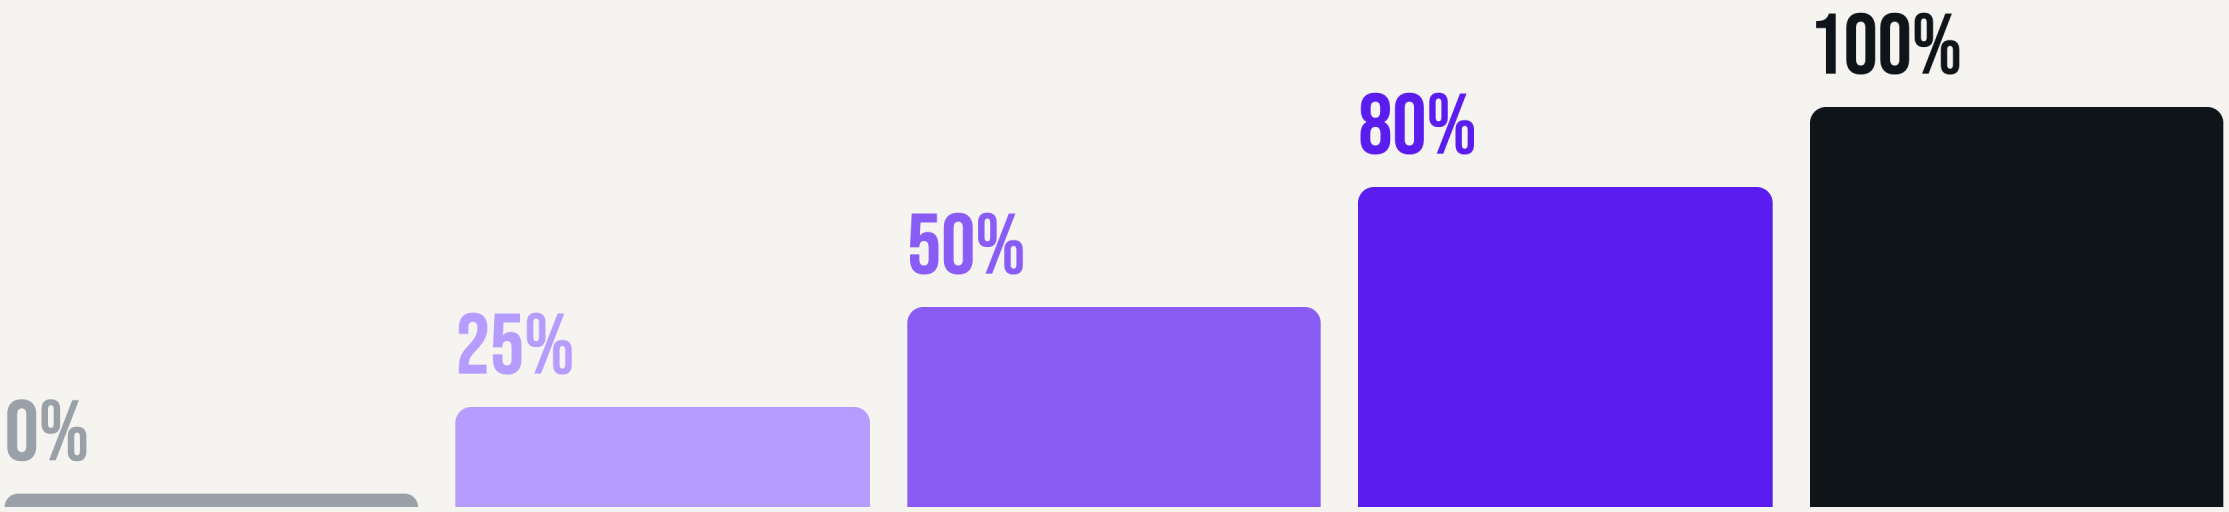

LIVE DEMO

RESERVE → PLATE CHECK → BAY OPENS → CHARGE → RELEASE

SOLVING NO-SHOWS

CANCEL EARLY, PAY LESS

Reminders at 24 h, 2 h, 30 min and 5 min. Drivers cancel in time, bays go back to others.

Share of a €5 booking kept by BayWatch, never an extra penalty. Proposed pilot rules.

SOLVING BLOCKED BAYS

BLOCKED? WE'VE GOT YOU.

BAY BLOCKED BEFORE YOU ARRIVE

CAMERA SPOTS IT

REROUTE 10 MIN EARLY

+ €5 CREDIT

Works for ICE cars, idle EVs or cars still charging.

DRIVER OVERSTAYS

REMINDER 5 MIN BEFORE

5 MIN GRACE

€0.30 / MIN

Blocking fee shared 50/50 with the operator.

Proposed policy: credit, fee and revenue split to be agreed with operators.

MORE UTILISATION

MORE CHARGING, SAME BAYS

€0

WALK-UP ACCESS

Empty bays open to anyone, no fee. Every walk-up driver meets the app.

€3–6

PREDICTIVE PRICING

Cheaper at quiet times, higher at peaks. Demand spreads out.

B2B

FLEET PARTNERS

Quiet bays go to e-taxi and ride-hailing fleets at a discount.

Pricing range and partnerships are tested in the 90-day pilot.

BUSINESS MODEL

HOW WE MAKE MONEY

RESERVATION FEES

FAST · 1 HOUR	€3
FAST · 2 HOURS	€5
SLOW · 4 HOURS	€4

Electricity is billed separately at the charger.

PLUS

No-show & late-cancel fees

Blocking fees, 50/50 with operators

Fleet deals for quiet bays

Later: 1–5% charging commission

20% of net reservation revenue goes to the bay owner

Proposed pilot prices; subject to change after the pilot.

UNIT ECONOMICS

€200 BACK IN 67 BOOKINGS

DRIVER PAYS	19% VAT	PAYMENT FEE	OWNER 20%	WE KEEP
€5.00	−€0.80	−€0.33	−€0.84	€3.03

67 DAYS

at 1 booking a day

23 DAYS

at 3 bookings a day

14 DAYS

at 5 bookings a day

€200 setup per bay, Stripe EEA card fee. Excludes other operating costs; illustrative, not a guarantee.

GROWTH

FROM ONE BAY TO THE NETWORK

NOW · 90 DAYS

PILOT

Prove the cycle, test prices, measure no-shows.

NEXT

MORE BAYS

Roll out with Ecurious hardware at busy fast-charging sites.

THEN

OPEN UP

Other apps and operators book via open API and OCPI.

BEYOND

NEW VERTICALS

Fleets, retail, hotels, events, plus a voice booking agent.

51K DC fast-charging points in Germany today. Just 1% of them is about 500 bays.
